

## DESIGN WORKSHOP

### MAGENTA TASSEL NECKLACE & EARRINGS

By: Katie Hacker

### Materials

#### Necklace – Any length

- 22-gauge Hematite Artistic Wire #AWD-22S-19-8YD
- Silver Small Beadalon Cable Chain #340B-001
- 7 Silver Beadalon Medium Ball Head Pins #312B-253
- Hematite Head Pin
- 40mm Teardrop Magenta Stone Bead
- 8 pink 6mm Cat's Eye Rounds
- 12mm Faceted Black Glass Round
- Magenta 6mm Shell Round

#### Earrings – 2 1/2" long

- 22-Gauge Hematite Artistic Wire #AWD-22S-19-8YD
- Silver Small Beadalon Cable Chain #340B-001
- 2 Silver Ball Ear Wires #308B-007
- 2 Silver 25mm Solid Rings

#### Tools

- Round-Nose Pliers #201A-104
- Chain-Nose Pliers #201A-101
- Wire Cutters #202A-105
- Nylon Jaw Flat-Nose Pliers #JTNJ3

**TIP:** This is a casual, quick necklace! For a more dramatic version, make several pendants and attach them in a cascade to the center of the necklace.

#### Necklace Instructions

1. Pass a silver head pin through a pink round and make a wrapped loop; repeat for all of the pink beads.
2. Pass a hematite head pin through a magenta round and make a wrapped loop.
3. Cut five 2" lengths of chain.
4. Cut a 6" length of wire and make a wrapped loop to attach the chains. Pass through the magenta teardrop, all of the beaded head pin loops, black round and make a wrapped loop.
5. Cut a 3" length of wire and coil it around the base of the teardrop and downward over the loop that's holding the chains.
6. Cut two lengths of chain to the desired necklace length and pass them through the upper loop on the pendant.

7. Cut a 3" length of wire and make a wrapped loop to attach one end of the chains together.
8. Pass through a pink bead and make another wrapped loop to attach the other end of the chains.

#### Earrings Instructions

1. Cut two lengths of chain: one 1" and one 1-1/4".
2. Cut a 3" piece of wire and make a wrapped loop on one end to attach the chains.
3. Pass through a pink bead, make another wrapped loop to attach the beaded dangle to the silver ring and ear wire.
4. Cut a 2" length of wire and coil it around the silver ring. Press the coil with nylon-jaw pliers.
5. Repeat Steps 1-4 to make a matching earring.
