

Bead Design Boards

Beadalon Bead Design Boards are a great addition to your stringing department! The flocked gray surface reduces eye strain and helps keep objects in place. Recessed storage bins are perfect for organizing beads, findings, and stringing materials. Graduated beading channels are essential for designing multi-strand necklaces and bracelets.

	Channel Length Inch	Width Inch	Length Inch	Working Channels	Storage Bins	Part #

D	52" (132 cm)	10.50" (27 cm)	21" (53 cm)	5	2	JA-BOARD52

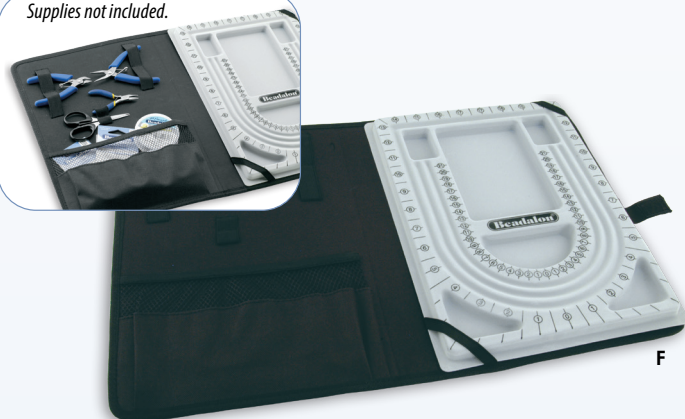

E. Bracelet Bead Board with Cover Tray

The Bracelet Bead board with cover/tray gives the perfect surface for designing bracelets of varying lengths, it contains four accessory cavities, four designing channels, and contains a cover for holding components in the cavities when moving or traveling. Flocked gray plastic provides a good designing surface.

Part #

218H-100

Supplies not included.

F. 34" (86.3 cm) Bead Board With Case

Sold together in one convenient pack, the 34" (86.3 cm) Beadalon Bead Design Board With Case is perfect for the designer-on-the-go! The bead board has a flocked gray surface which reduces eyestrain and helps keep objects in place, graduated beading channels, plus recessed storage bins perfect for organizing beads, findings, and stringing materials - essential for designing multi-strand necklaces and bracelets. The case has elastic straps which hold the bead board securely inside a fold-over cover. A secure Velcro strap keeps the cover in place for travel. Inside features six elastic straps for securing tools and one large elastic mesh pouch - perfect for stringing materials and supplies!

Part #

207S-020

A. 34 inch (86.3 cm) Bead Board Case

Elastic straps hold a 34" (86.3 cm) bead board (not included) securely in this fold-over case. A secure Velcro strap keeps the cover in place for travel. Features six elastic straps for securing tools and one large elastic mesh pouch - perfect for stringing materials and supplies! 9.5" x 13.5" x 1.5" (24.1 x 34.2 x 3.3 cm).

G. Tacky Bead Mat - Clear EXCLUSIVE!

The Beadalon Tacky Bead Mat is a sticky mat that keeps beads and pieces in place while you're working. It does not leave a sticky residue when you remove items from the mat. If the mat gets dirty, simply 'recharge' it by washing it under warm water until clean, let dry and it's ready and sticky again. Use to secure tabletop tools including jigs, the Tassel Maker tool, and others. 7 in x 4.75 in x 0.10 in (180 mm x 120 mm x 2.5 mm)

Part #
218H-210

- Sticky Surface Holds Small Parts
- Clean With Water to Recharge
- No Residue

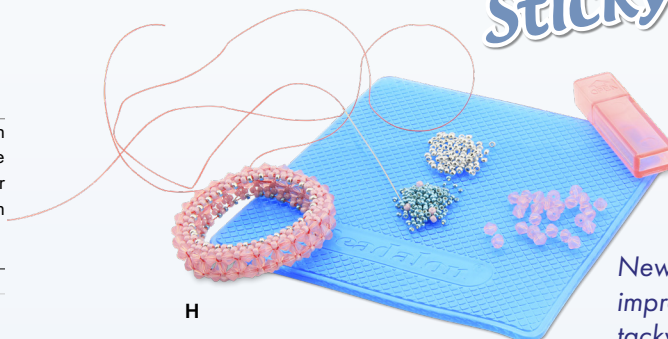

G

They're Sticky!

H. Tacky Bead Mat - Blue EXCLUSIVE!

The original Tacky Bead Mat is a sticky mat that keeps beads and pieces in place while you're working. It does not leave a sticky residue when you remove items from the mat. If the mat gets dirty, simply 'recharge' it by washing it under warm water until clean, let dry and it's ready and sticky again. 4" x 4" (10.1 cm x 10.1 cm).

Part #
218H-200

H

New and improved tacky formula!

Use the sliding guide to portion-off smaller counts.

Econo Bead Counters Kit

An economical way to organize, count, and package beads. The Econo Bead Counters kit contains four trays for counting from 2 mm – 10 mm beads. Made of plastic with a sliding guide allowing for smaller counts. 3 1/8 in x 4 in (8 cm x 10 cm).

	Size	Size	Size	Size	Pieces Per Pack	Part #
A	2-3 mm	4-5 mm	6-7 mm	8-10 mm	4	222K-199

Tri-Trays

Plastic bead trays are great for working with small beads, findings, and other loose beading items. The triangular shape and lightweight design make them the perfect choice for quick organization. Great for displaying sample beads at trade shows! Flocked Tri-Trays have the same great flocked surface as our Bead Boards (p. 76).

	Height cm	Length Ea. Side cm	Pieces Per Pack	Part #

C	1.08 (.425")	9.52 (3.75"); 12.0 (4.75")	4 (2 per size)	207A-051

Flocked Tri-Trays have the same great flocked surface as our Bead Boards (p. 76).

D. Acrylic Pliers Rack

Keep your tools handy, and your workspace less cluttered, with the Beadalon Acrylic Pliers Rack. Organize your tools by size or by use. You'll never be fumbling around for your pliers again. Dimensions: 8 x 5 x 4 in. (20.3 x 12.7 x 10.1 cm). Pliers not included.

Part #

207A-045

E. Tool Huggy

The Tool Huggy Tool Holder is the perfect desktop storage solution to keep your tools organized and within reach. The silicone insert holds almost all shapes of tool handles. Use the marquise shaped openings for thinner handles and the spaces between the patterns for larger handle items. Distributing the weight of the tools will insure that the holder is stable. Larger items such as ring mandrels and rulers - and anything else that fits - can be stored in the center spaces. Don't be fooled by the compact size- this tool holder can fit a lot! 8.25 in x 2 in x 1.375 (20.1 cm x 5 cm x 3.5 cm)

Part #

207A-042

Holds almost all shapes of tool handles!

Tools not included.

A. Table Top Work Bench *EXCLUSIVE!*

Drawing on the popularity of the Beadalon Wooden Organizer, the Table Top Work Bench has even more compartments to keep supplies organized and easy to access. With slots for tools, drawers for findings, spaces for beads, reamer tips and saw blades, this Bench is also a great way for bead stores to keep production supplies organized. A wooden dowel provides a handy way to display and dispense spooled wire. Dimensions: 18 x 4.75 x 9 in. (45.7 x 12.1 x 22.8 cm), 9 bins, 4 drawers, 1 rack. Supplies not included.

Part #
207A-005

A

**B. Beading Station** *EXCLUSIVE!*

The Beading Station is the next frontier in workspace organization. Two wooden dowels give easy access and storage for all of your beading tools - this also lengthens the life of your tools by keeping blades away from each other. Eight hooks allow you to store strung beads, play around with different color combinations, or keep findings at hand and visible. Another wooden dowel in the bottom provides space to store and dispense spooled wire, Dandyline, or any other spooled material. Two trays hold supplies, findings, or even projects in progress. There are so many uses for this organizer, the only limit will be your needs! Dimensions: 17.75 x 5.75 x 13 in. (45 x 14.6 x 33 cm), 2 trays, 1 rack. Supplies not included.

Part #
207A-007

B

These workstations are designed to be used with Beadalon Wires, Cords, and Tools.

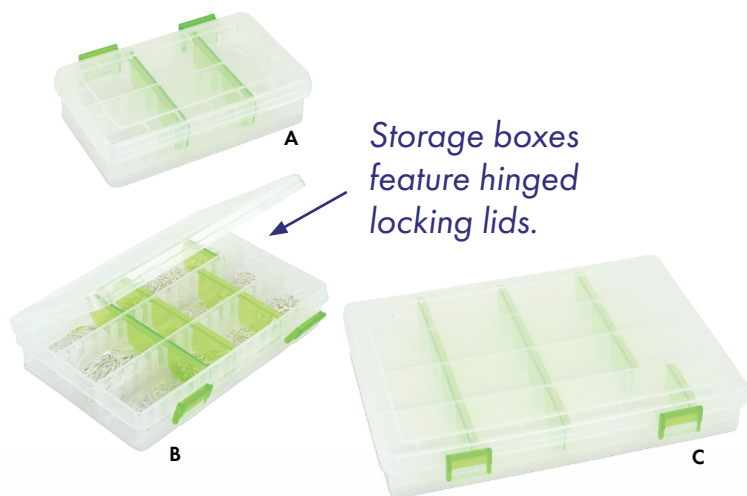

C. Wooden Organizer

You can organize Beadalon wire spools, Dandyline, and other items in the eight vertical bins of this Wooden Organizer. Single large drawer is great for Needles, Findings, Beads and other loose items. The open flat bin on the end keeps tools at hand and visible. The Wooden Organizer sits nicely on any worktable. Dimensions: 8.5 x 6.5 x 3.75 in. (21.5 x 16.5 x 9.5 cm), 9 bins, 1 drawer. Supplies not included.

Part #
207A-001

C

Storage boxes feature hinged locking lids.

Fill this pouch with your favorite Beadalon Tools!

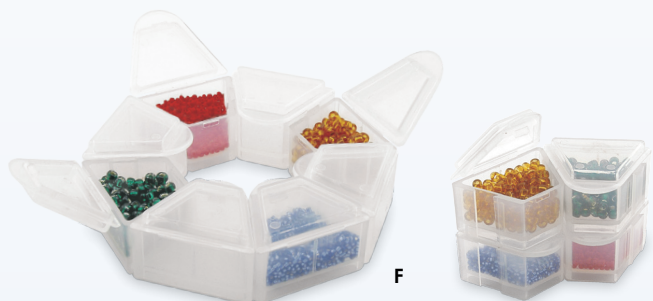

Tools not included.

VINYL-FREE MATERIAL

E

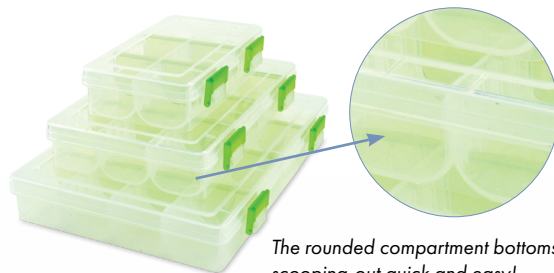

F

Storage Boxes with Removable Dividers

Keep your bead stash organized (or at least try) with these storage boxes. With removable dividers, you can size the compartments for different sizes or amounts of beads, findings, tools or stringing materials. A terrific storage container to make your own bead kits with strong green snaps! Beads not included.

Dividers	Height cm	Length cm	Width cm	Part #	
A	4	3.8 (1.5")	8.9 (3.5")	15.2 (6")	JA-BOX4
B	9	3.8 (1.5")	12.7 (5")	20.3 (8")	JA-BOX5
C	12	3.8 (1.5")	17.8 (7")	25.4 (10")	JA-BOX6

The rounded compartment bottoms make scooping-out quick and easy!

Zip Pouch

Keep your tools organized and protected in this soft-sided carry case! It has multi-functional elastic bands for holding your choice of tools, and hook and loop closure for accepting odd-size containers or tools. Fits most standard tools. Tools not included.

	Size (LxW x H)	Part #
D	7.7" x 5.1" x 1.2" (19.6 cm x 12.6 cm x 3.05 cm)	207F-007

Fabric Box Case with 5 Boxes

Tough case containing 5 storage boxes with moveable dividers, helps keep beading materials organized and ready for travel. Zippers along the top and down the front make for easy access to the boxes. Extra pockets on each side and at the back allow for storage of tools, spools and other odd-shaped equipment and supplies. Detachable, adjustable carrying strap makes travel easy. Boxes are individually labeled and shrink-wrapped.

	Size (LxW x H)	Part #
E	8" x 6" x 8" (20.3 cm x 15.2 cm x 20.3 cm)	207A-040

Storage Ring

The Storage Ring contains eight individual containers which easily slide together side by side. To stack them, simply snap into place. Positive locking caps keep even the smallest items from escaping. Store jump rings, findings, seed beads, and other components – ready for your next project. Have plenty of Storage Rings handy for all your jewelry and craft projects. Beads not included.

Compartments	Height cm	Width cm	Part #	
F	8	2.54 (1.0")	10.16 (4.0")	207A-100

Storage Organizer with Bead Scoop & Tweezers

This Bead Organizer has plenty of individual containers for the most complex seed bead or jewelry projects: 34 small boxes, 16 mini boxes and 2 medium boxes. It's complete with a Bead Scoop and Tweezers. Economically priced, but loaded with features. Beads not included.

Compartments	Height cm	Length cm	Width cm	Part #
A	55	4.45 (1.75")	20.3 (8.0")	207A-500

Comes with bead scoop, tweezers, and individual mini-boxes.

A

Boxes and Storage Organizers are individually labeled and shrink-wrapped.

Bead Storage Boxes

Store, transport, and organize Beads and Findings in these handy Storage Boxes. Clear plastic construction makes it easy to locate just the beads you need. Hinged lids close tightly around compartments to prevent mixing of parts. Beads not included.

	Length cm	Width cm	Bins	Part #
B	18.0 (7.0")	14.0 (5.5")	8	JA-BOX1

Part #

225C-050

Hands-Free Magnifier

Use the Hands-Free Magnifier for stringing beads, examining jewelry, working with findings, or doing hobby work. Wear it on the adjustable neck cord, and free both hands for jewelry and craft projects. Useful for working with small findings like Wire Guardians, Scrimp Findings, Bead Bumpers, and Seed Beads.

Lens Size	Weight	Magnification	Part #
14x11 cm (5.5"x4.25")	243.8g (8.6 oz)	1.5X (6X inset)	225A-001

Third Hand

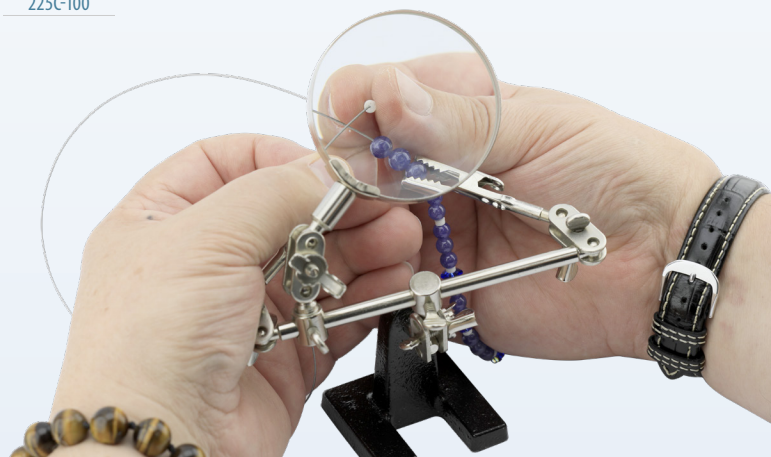

An essential tool for every jewelry maker, this innovative "third and fourth hand" is designed to make intricate work effortless. Equipped with two adjustable metal clips, it securely holds chains, findings, wires, cords, and more, freeing both of your hands for detailed crafting. The clips rotate in all directions thanks to a double ball-joint mechanism, easily adjusted with wing nuts for precise positioning. The attached glass magnifier offers a crystal-clear view of your work and can be positioned along the crossbar using the same flexible joint system. Both the crossbar and upper portion of the tool are fully adjustable, providing ultimate control and stability. Its compact size makes it perfect for travel, jewelry shows, or on-the-go repairs. Whether you're swapping clasps or tackling complex repairs, this versatile tool is your ultimate hands-free helper.

Part #

225C-100

- 2.5 inch glass lens
- All clips, magnifier and joints rotate 360°
- All parts chrome plated, heavy duty stand

The Original Bead Stoppers™ EXCLUSIVE!

It's the perfect beading accessory to keep your projects organized and neat. Use the Bead Stopper to prevent beads from falling off the end of the strand. Using alligator clips or sticky tape will either make a mess out of everything you touch, or it can kink your stringing material. The Bead Stopper will hold your work securely, and it won't fall off, even with a good tug. Pretty pink tips make them even easier to see and use! You won't go wrong using the Bead Stopper with all of your beading projects.

E. Spool Tamer™ EXCLUSIVE!

Put an end to tangled wire! The Spool Tamer is an adjustable wire dispenser that helps keep your spooled Beadalon Bead Stringing Wire, Artistic Wire, and other beading cords tidy and easily accessible. To use, thread the end of the wire or stringing material through the hole in the buckle. Attach the band around the spool and tighten or loosen if necessary. Hold onto the tab and pull the wire through the hole to dispense. Great for every spool of wire and stringing material in your jewelry workshop! 10 mm wide cord with 25x12.5 mm curved buckle and 3 mm hole, adjustable from 1-4 inches.

Pieces Per Pack	Part #
3	216A-210
25	216A-211

Fits all Beadalon and Artistic Wire Retail spools!

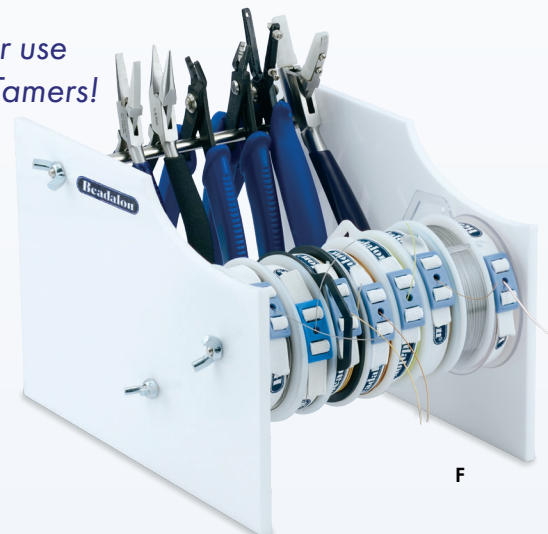

F. Tool & Spool Rack EXCLUSIVE!

The Beadalon Tool & Spool Rack is a great way to keep your wire secure on the spool and keep all of your wires and tools organized and ready to use. Secure Beadalon Bead Stringing Wire and Artistic Wire Spools with Spool Tamers, follow the included instructions to assemble the Tool & Spool Rack and load the spools onto the rods. Rod diameter is 0.25 in (0.64 cm) and 6 in (15.2 cm) long. Spool Tamers sold separately.

Part #
207A-040

Designed for use with Spool Tamers!

Simply add spools of wire (fitted with Spool Tamers) onto a partially assembled Tool & Spool Rack. Slide the open tab of the Spool Tamer onto the bottom rod while sliding the top rod through the hole in the spool. Add the desired amount of spools, then finish assembling the rack.

NEW, Safe-To-Handle Vinyl-Free Grips on ALL Beadalon Tools

Beadalon is the only company in the industry that has banned all foreign-sourced PVC in hand tools and tool pouches, thereby eliminating any potentially harmful Phthalates exposure to jewelry makers.

Tools feature vinyl-free grips, precision jaws, durable hinges, high quality craftsmanship and are engineered for professional, long lasting jewelry making results.

Vinyl-Free Zipper Pouch

Beadalon is taking big steps towards reducing single-use plastics in tool packaging by eliminating plastic blisters and bags, and replacing these materials with recyclable and sustainable cardboard cards and boxes.

VINYL-FREE GRIPS

Look for the Vinyl-Free Grips logo on new packaging!

4 Different Tool Grades

Choose from four varieties of tool grades, at different price points, to suit your budget and needs.

SPECIALTY CUTTERS/SHEARS

Jewelry wire - whether it's soft copper, silver, or harder materials like steel - requires precision tools to ensure clean cuts to avoid fraying or weakening the wire. Investing in high-quality, specialized cutters/shears like these, are essential to prevent uneven cuts, damaged wire, and marred tool tips.

With MultiPliers, instead of taking the time to put down one pair of pliers and pick-up the next, the multiple heads save valuable time by eliminating this process.

Great for creating custom jump rings!

A

A. Jump Ring Coil Cutting Pliers

Make your own jump rings easily and consistently with the Jump Ring Coil Cutting Pliers. Create a coil, then use the pliers to hold it in place as you cut it into jump rings with a jeweler's saw. You can also cut oval, square and other shapes as long as the coil can be grasped inside the jaws of the pliers.

Part #

2265-010

B

B. Artistic Wire Nylon Jaw Pliers

Nylon Jaw Pliers are considered a must-have when working with soft wires. This economy grade pliers make quick work of straightening wire and for fixing mistakes. Pull wire through closed jaws of the Nylon Jaw Pliers to correct and straighten. Use Nylon Jaw Pliers for flattening and hardening designs after shaping, simply squeeze curls, spirals or other shapes to harden.

Part #

AWA-NSI3405

C

C. Hole Punch Pliers

Use the Hole Punch Pliers to punch a 1.8 mm (.071 in) hole in leather, soft sheet metal (copper, silver, aluminum, etc.), Flat Artistic Wire, and even some plastics.

Part #

2055-012

D

D. Artistic Wire Round Nose Pliers

Round Nose pliers with a cutter, create loops, bends and use for making jump rings. Carbon Steel Lap Joint pliers perfect for Artistic Wire projects.

Part #

AWA-NSI3403

E

E. Artistic Wire Econo Cutter

Flush cutting large nipper allows for close flush cuts. This tool cuts clean with no sharp edges and has a rivet joint with comfortable handles. This economy grade nipper good for cutting all soft metals. 13 cm (5 in).

Part #

AWA-NSI3404

EXCLUSIVE!

A. Artistic Wire Interchangeable Nylon Tip Stepped Pliers

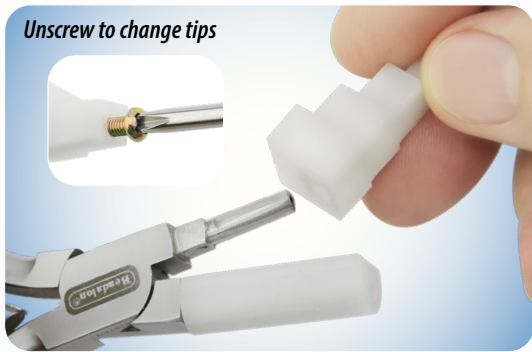

The Interchangeable Nylon Tip Stepped Pliers feature a set of removable and interchangeable heads in 3 shapes: Round, Oval, and Square. Use the multiple sizes and shapes to create chain, jump rings, or form complex wire forms to use in jewelry or home décor projects. Use on wire diameters smaller than 16 ga. To change the pliers heads, use the included screwdriver to remove the screw from the end of the pliers on the shaped side and replace the head with one of the other two forms, replace the screw and continue designing.

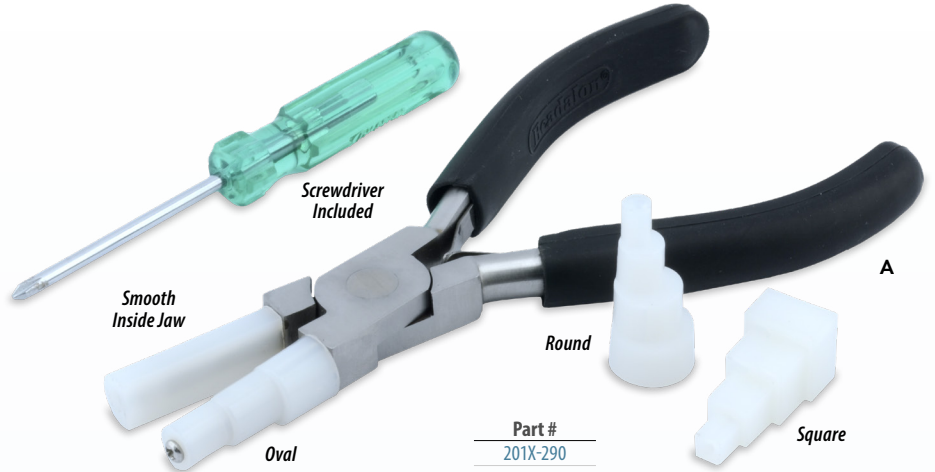

Create Square, Round, & Oval shapes quickly with the same tool!

Smooth Nylon Tips allow for maximum grip without marring or damaging the wire

Unscrew to change tips

CONETASTIC™

CONE MANDREL TOOL SET

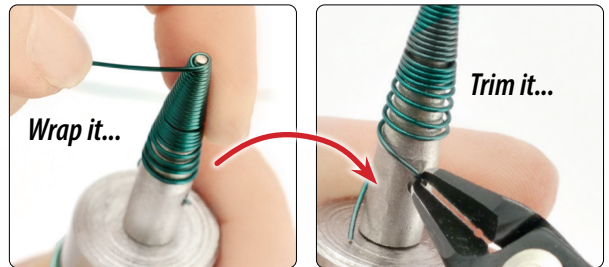

by Sandra Lupo

A. Artistic Wire Conetastic™ by Sandra Lupo **EXCLUSIVE!**

Sandra Lupo invented this ingenious tool to create custom bead cones and bead caps for strung designs, earrings, Kumihimo and more! The 3 different sizes of cone mandrels fit into the base of the tool for easy storage. To use, simply insert your desired mandrel into the base and tighten into place with the included Allen wrench. Place your wire into the insertion hole in the mandrel, hold it in place with your thumb, then gently twist the mandrel until the wire spiral reaches the top. The mandrels can also be used with the Professional Coiling Gizmo Chuck. Use the tool with a bench vise by inserting the base into the vise. Spiral a coil around a large gauge wire for an incredibly beautiful custom cone.

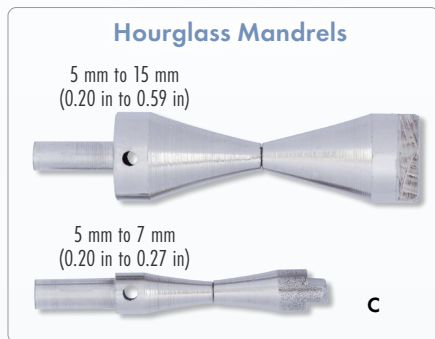

Part #
2285-710

Artistic Wire Conetastic Cap Mandrels **EXCLUSIVE!**

The Conetastic Bead Cap Mandrels are specifically designed for use with the Conetastic handle. The mandrels make quick work of creating three sizes of cone shaped bead caps, and two sizes of bowl shaped bead caps. Change the number of wraps to create smaller or larger caps to custom-fit your design. Use twisted wires for an interesting "twist" to create fancy bead caps. Try using the end of the wire on the large side of the bead cap to make a loop or stylish coil for more interest.

	Style	Part #
B	Cap Mandrels	2285-722

Artistic Wire Conetastic Mandrels **EXCLUSIVE!**

Three sizes of inverted cones and two hourglass shapes join the lineup in the Conetastic Mandrels family to use with the Conetastic Tool. The inverted shape makes it even easier to make coordinated bead cones and bead caps for your designs. With three sizes to choose from, you'll be able to create even more custom findings. Two sizes of hourglass mandrels create small and large double-sided cone which highlight beads on both sides.

	Style	Part #
C	Hourglass Mandrels	2285-714
D	Inverted Mandrels	2285-718

A. Artistic Wire Two Piece Chain Maille Tool Set

These high quality Stainless Steel Chain Nose & Bent Chain Nose Pliers are useful in so many wire wrapping and wire forming applications, opening and closing chain maille rings, and for grasping small components. For use with German Style Wire, Artistic Wire, and other soft-tempered wires. Box joint and double leaf spring construction. 5 inches (12.7 cm).

Artistic Wire Two-Piece Chain Nose & Bent Chain Nose
 Part # 201A-525
 Grip Color PURPLE

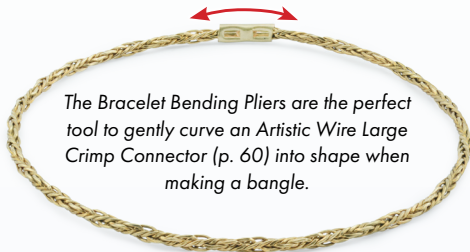

B. Artistic Wire Bracelet Bending Pliers

Use this nylon jaw Bending Pliers to prevent marring and marking your wire and components as you bend them into a gentle curve that will comfortably fit your wrist. Use these stainless steel pliers to form a complete circle for a bangle bracelet, or gently form a flat component into a perfect curve.

Part # 201S-270

Bend Artistic Wire into a gentle curve that will comfortably fit any wrist!

The Bracelet Bending Pliers are the perfect tool to gently curve an Artistic Wire Large Crimp Connector (p. 60) into shape when making a bangle.

C. Artistic Wire Straightener Tool

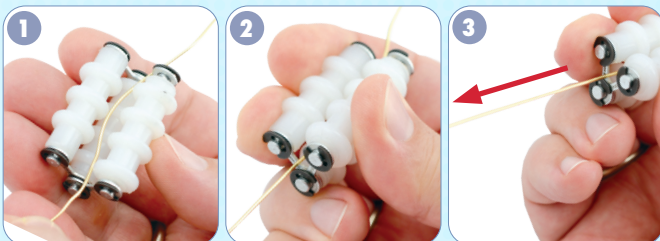

The Artistic Wire Straightener tool makes it easy to straighten wire that has been worked. Put the rollers in your hand in the open position with each of the rollers side by side. Lay the end of a piece of wire that requires straightening on the three rollers, then move the rollers until they form a triangle with the wire in the center. Grasp the rollers in one hand holding tightly, then pull the wire through the rollers to straighten. May need to pull through a second time for highly bent wires. Nylon rollers help keep Artistic Wire coating intact.

Part # 228S-420

This Wire Straightener Tool is a Must Have for all wire artists!

USING THE ARTISTIC WIRE STRAIGHTENER TOOL

Stepped Bangle Bracelet Mandrel

Make bangle bracelets quickly, consistently and efficiently with the Stepped Bangle Bracelet Mandrel. Mandrel steps are 2 in (5 cm), 2.25 in (5.65 cm), 2.5 in (6.25 cm), 2.75 in (7 cm) diameter. Measures 8 in (20.3 cm) tall.

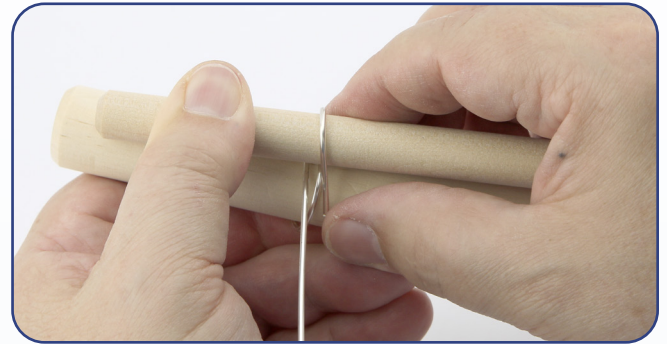

Part #
2285-570

Wooden Mandrel Set

Econo Mandrel Set of varying sizes of mandrels for forming wire into rings, coils, jump rings, asymmetric figure-8 components, and more. Includes a handy carrying case. Mandrel diameters are 0.25 in (6.35 mm), 0.375 in (9.53 mm), 0.5 in (12.7 mm), 0.625 in (15.88 mm), 0.875 in (22.23 mm), 1.0 in (25.4 mm). Mandrel length is 5.5 in (14 cm).

Part #
2285-540

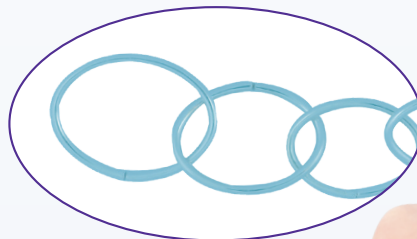

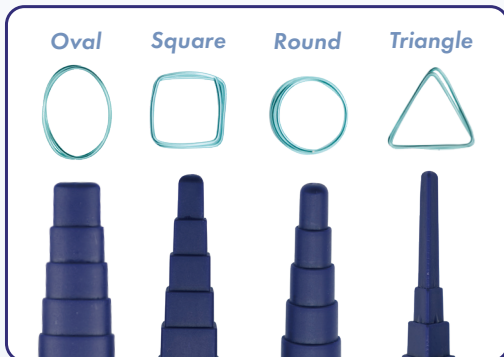

Create shapes out of Artistic and German Style Wires!

Artistic Wire Mandrel Set

Create shapes out of Artistic Wire, ColourCraft, and German Style Wires with these stepped mandrels. Use the shapes in a variety of ways – make bails, cones, or pendants by wrapping then manipulating the wire. The triangle mandrel will make 10 different sizes of triangles from approximately 4 mm to 27 mm. The round (6 mm to 29 mm), square (5 mm to 25 mm) and marquise or oval (11 mm to 29 mm) shaped mandrels will each make 12 different sizes. That's 46 different sized shapes in one set! The included mandrel base makes it easy to hold the mandrels for precise wrapping.

Part #
2285-480

Create your own links & chain!

A. Artistic Wire Shaping Mandrel - Oval

The Artistic Wire Shaping Mandrel is stepped to make precision coils, bends, and jump rings in 3 sizes. Also use this tool to make consistent shapes within a wire design. Keep the coils together to make spacers, or cut them apart to make jump rings. Use the shapes as design elements to connect pieces together, attach clasps or charms, make consistent curves or angles, and to add interest to your wireworked designs. Mandrel sizes are 7x9 mm (0.28 x 0.35 in); 5x7 mm (0.2 x 0.28 in); 4x6 mm (0.16 x 0.24 in). 13.2cm (5.2in)

Part #
228A-210

- Make 3 sizes of Oval Coils or Rings
- Shape Wires consistently with the curves of the Mandrel
- Use with Artistic Wire, ColourCraft, German Style Wire, or Precious Metal Wires

A

B

C

D

B. Multi Jump Ring Maker Mandrel Set - Round

This handy Jump Ring Maker Mandrel is perfect for making jump rings on the go. Two mandrels are included - the larger size will make jump rings in sizes 6.0 mm, 7.3 mm, 8.2 mm, 9.0 mm, and 10.0 mm. The smaller version makes sizes 1.5 mm, 2.0 mm, 3.0 mm, 4.0 mm, and 5.0 mm. 5.5 in (14 cm).

Part #
228A-200

C. Short Ring Mandrel

Aluminum Short Ring Mandrel, great for most sizes of rings from 3.5 to 10.75. This sturdy, high quality Ring Mandrel is easy to use and does not have a groove which makes it great to use with wire, no flat spots in the ring. The shorter length makes this ring mandrel the one to use when traveling. Made of Aluminum. Marked for US ring sizes 3.5- 10.75.

Part #
228A-310

D. Ring Mandrel

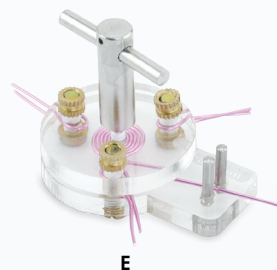

This sturdy, high quality Ring Mandrel without a groove is perfect for making wire-wrapped rings and for sizing, made of strong but lightweight aluminum. Marked for US ring sizes 0-15. Length 25.4 cm (10 in).

Part #
228A-300

E & F. Artistic Wire Spiral Maker **EXCLUSIVE!**

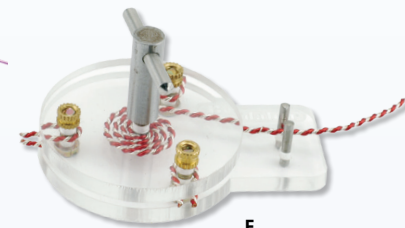

These Spiral Makers create perfect spirals out of Artistic Wire, German Style Wire and any other soft wire 20 ga (0.81 mm) and smaller. Use colorful spirals to embellish jewelry, scrapbooks and paper crafts. Use small pieces of the diameter wire you intend to make the spiral as a washer on the three screws. Tighten wing nuts and insert the same gauge wire into the device. Center the wire in the center hole and insert the twister handle so the wire is inside the slit on the handle. Twist the handle until the desired size of coil is reached. Tip: count the number of turns to re-create the same size coils for multiple coils, or perfectly matching earring danglers.

	Size	Max. Coil Diam.	Part #
E	Standard	5/8" (16mm)	228A-500
F	Large	1 1/4" (32mm)	228A-510

E

Make perfect spirals every time!

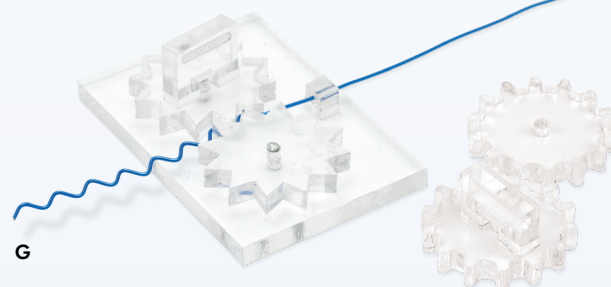

F

G. Artistic Wire Crinkler Tool **EXCLUSIVE!**

Crinkle Artistic Wires 20 Gauge (0.81 mm) and finer with the Crinkler Tool. Attach like gears onto the base, insert wire into the small hole on guide then catch into the center of the gears. Slowly turn gear with handle until wire is moving through the gears, continue to turn while pushing down on both gears until desired amount of crinkled wire is made. Change gears for a different crinkle pattern. Package has instructions and contains two styles of gears (rounded & pointed) and base.

Part #
2285-060

C

Make the Jump Rings you need – in the color, size, and wire gauge you require!

Jump Ring Maker *EXCLUSIVE!*

The exclusive Beadalon Jump Ring Maker comes in different configurations so you can make just the size you need. Try coiling vivid Artistic Wire and ColourCraft into colored Jump Rings to add definition and texture to jewelry designs, or use gold-filled, sterling, or base metal wire to fashion components that complement your designs. Use the Wire Twister (below) to make pre-twisted color combinations, then make twisted Jump Rings for all your jewelry or craft projects. Easy to use, fast, and fun. Once you try making your own Jump Rings you may never want to stop!

Size	Part #
A Round, standard	228A-050
B Oval	228A-055
C Round, large	228A-051

D. Wire Twister *EXCLUSIVE!*

The Wire Twister tool allows you to twist between 2-5 Artistic Wire, ColourCraft, or German Style Wires in the diameters and color combinations you want. This professional grade twister tool is made from copper and nickel plated steel to prevent rust. It features a Stainless Steel screw that secures the 5 mm (0.19 in) thick high quality acrylic disc with a T304 Stainless steel sleeve. This quality product provides years of use for twisting Artistic or German Style Wires. Combine colors for custom Jump Rings or earring dangles that coordinate colors for any gemstone or other type of beads. Use twisted wires on the various Jump Ring Mandrels or on the Conetastic Cone Mandrel set (p. 106) for custom colors of cones. Approx. 5 inches (12.7cm)

Part #
228A-100

E. Econo Wire Twister *EXCLUSIVE!*

This is an economy version of our original Wire Twister tool (above), and is made of steel with a 4 mm (0.15 in) thick plastic disc. Place up to 5 Artistic Wire, ColourCraft, or German Style Wires onto the disc of the Wire Twister, then attach the wires to a sturdy object. Pull the wires taut, turn the crank, and watch the wires twist. Use color combinations to create great looking Jump Rings. Multiple wires, once twisted, have more strength than single wires. Makes creating Artistic Wire designs more interesting and fun. Use twisted wires in the Beadalon Jump Ring Maker to create different sizes of round or oval jump rings. Approx. 5 inches (12.7 cm).

Part #
228S-100

Make twisted wire in the colors you need.

D

E

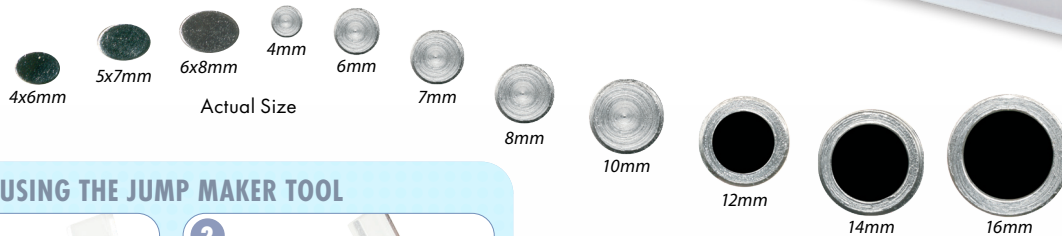

USING THE WIRE TWISTER

A. Wire Twister & Jump Ring Maker Combo Set *EXCLUSIVE!*

Together in one convenient set, you can twist wire and make custom jump rings in the sizes and wire gauges you want! The Beadalon Jump Ring Maker comes in different mandrel sizes so you can make just the size you need. Try coiling vivid Artistic Wires into colored Jump Rings to add definition and texture to jewelry designs, or use gold-filled, sterling, or base metal wire to fashion components that complement your designs. Use the Wire Twister to make pre-twisted color combinations, then make twisted Jump Rings for all your jewelry or craft projects. Once twisted, multiple wires have more strength than single wires. Easy to use, fast, and fun. Once you try making your own Jump Rings you may never want to stop!

Part #
228K-075

USING THE JUMP MAKER TOOL

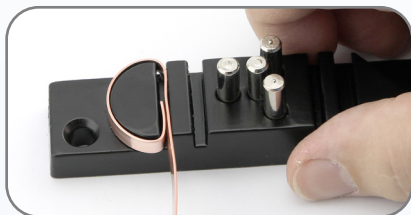

© Beadalon 2025

B. Wire Bending Tool

This value-priced Wire Bending Tool makes consistent bends of 45, 55, 80, and 90 degrees. Use the D Shape to make D-Rings and curves. The grooves are large enough for all gauges of Artistic and German Style Wires. Use the 4 removable pegs for various wire forms up to 14 gauge including S-Hooks, Figure-8 and other looped components and smaller curved bends. Use the included screws to attach to a work bench or piece of wood to allow forming with both hands.

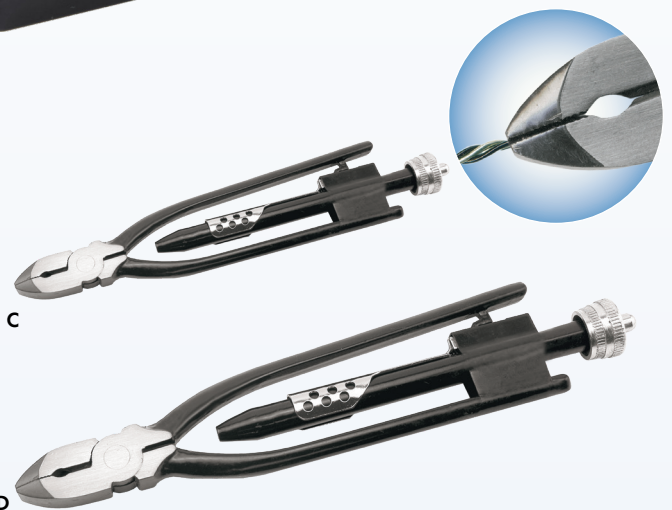

Part #
2285-800

C & D. Twisting Pliers

Use this Economy made tool to wrap tight, consistent twisted wire lengths. Simple one-pull action and automatic return twists wire quickly into a strand that will not unravel. Great for use with Artistic Wire! Cutting blades in center cut soft wire easily. Standard tool is 10.5 inches (26.7 cm). The mini twister is specially made for smaller hands and ideal for lighter duty twisting. 8.25 inches (21 cm).

EXCLUSIVE!

Artistic Wire Coiling Gizmo Deluxe Econo Winder

The Coiling Gizmo Deluxe Econo Winder features a built-in table-mount base, five crank-rods of different sizes, and instructions. The thinnest rod will handle fine wires, producing tiny beads to adorn the most delicate jewelry, while the larger rods will help you make your own jump rings, wire beads with the many colors of Artistic Wire. Wire not included.

Part #
JTECONWIN1

ROD DIAMETERS

Artistic Wire Professional Deluxe Coiling Gizmo *EXCLUSIVE!*

The Professional Deluxe Coiling Gizmo comes with a C-Clamp mounted chuck, five 15 in (38.1 cm) rods, an additional U Clamp Bracket, and a swivel attachment. To use, mount the tool to a table or workbench, insert a rod into the chuck and tighten, and thread the end through the other bracket. Use it like its Econo and Deluxe siblings by cranking wire around the rod of the Professional Deluxe Coiling Gizmo to make coils and to create beads and bracelets. The swivel attachment allows you to coil directly onto wire. Try stringing beads onto the wire with the Spin-N-Bead (p. 130) for another design option. Suitable for use with all gauges of Artistic, German Style and Silver Filled Wire. Wire not included. Use with the Wooden Ring/Wire Clamp for very tight coils (p. 119). Mandrels from the Conetastic tool also fit into the chuck of the Professional Gizmo.

Part #
JTPROFWIN

The Professional Coiling Gizmo - five 15 in (38 cm) rods, two built-in table-mounts, swivel, and a chuck for easy rod replacement.

Findings Forms™

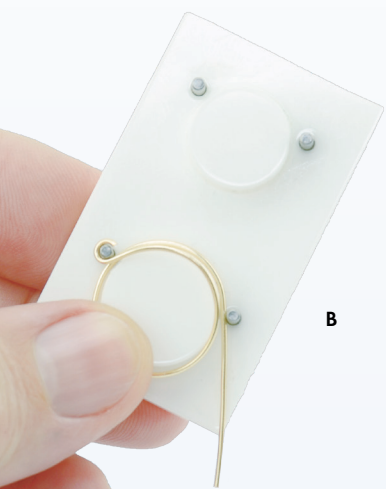

Artistic Wire Findings Forms™ **EXCLUSIVE!**

Findings Forms are fixed peg jigs that allow you to make your own findings using Artistic Wire, ColourCraft, and Beadalon German Style Wire. Each jig makes a unique, consistently sized form such as an ear wire, clasp, connector, and adjustable rings, bracelets, and necklaces. Each Findings Forms jig comes with a detailed, step-by-step full color instruction sheet that is easy to follow, plus a tube pusher tool to guide wire.

Comes with 20 Pegs & Fasteners.

A. Artistic Wire™ 3D Bracelet Jig *EXCLUSIVE!*

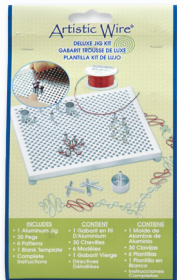

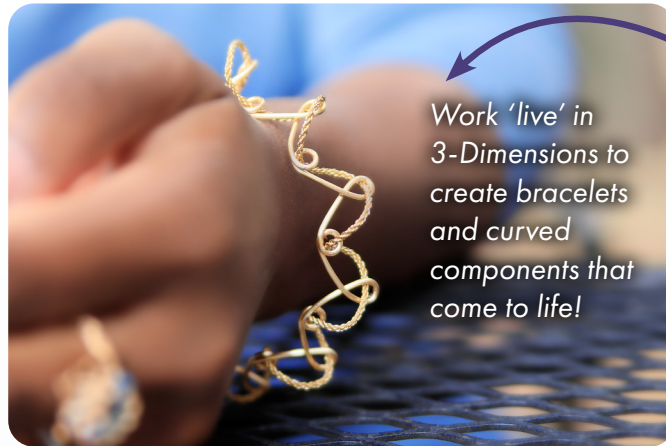

Create bangle bracelets, cuff bracelets, and curved components using the award winning and Patented Artistic Wire 3D Bracelet Jig! Design perfectly round, continuous, all-in-one bracelets in 3 dimensions using wire, stones, and beads with this unique jig - even make curved design components for bracelets and earrings. Includes one Round Jig base with evenly spaced rows and columns of holes and 20 Removable Pegs (23 mm length, 3.4 mm diameter) and 20 Peg Fasteners. Plan your design by inserting each peg into the outside of the jig and secure it by attaching the fastener from the inside. Then, wrap your wire to create your design. Remove the design by pulling the pegs off the jig and slide the design off. The design capabilities are virtually limitless! Creates a 2.75 in (6.9 cm) diameter design that fits most wrists.

Part #
2285-550

Jig base has evenly spaced rows and columns of holes for consistent designs.

Secure each peg by attaching the fastener from the inside.

B

B. Artistic Wire Deluxe Jig Kit

The Deluxe Jig is ideal for forming elaborate loops for jewelry components, including necklace links, ornaments, pins – you're limited only by your imagination. Adjust the pegs on the jig base to create patterns of your own or follow the pattern-sheet included with the jig. Replicate designs consistently time and time again. The Deluxe Jig Kit has a durable, sturdy 4 in x 5 in (10 cm x 13 cm) aluminum base with 30 aluminum pegs. The Deluxe Jig Kit is suitable for use with all gauges of Artistic Wire. Wire not included.

D

D. Artistic Wire Beginner Jig Kit

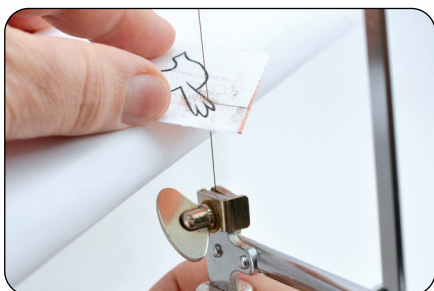

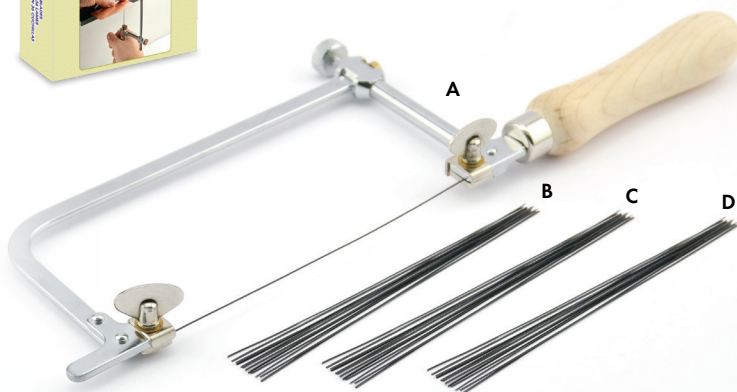

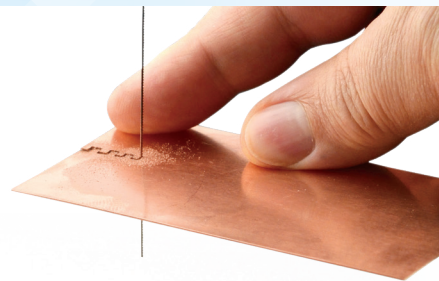

An inexpensive, entry-level tool that works best with smaller gauge Artistic Wires (20-28 ga.). For light-duty jigging, its compact, lightweight size 3" x 4" (7 cm x 10 cm) makes it well-suited for travel; base and pegs are plastic. Wire not included.

Part #
JTJIGBEG

Artistic Wire Saw Frame with 36 Blades

This product comes with 1 dozen each of 3-size saw blades and beginning instructions right on the package. Unwrap one of the bundles of saw blades and carefully remove one of the blades. Loosen the wing nuts on the saw and insert the blade with the teeth pointing out and down. Slip one end of the blade into the fixture and tighten the wing nut, then apply pressure from the end of the saw so that the blade is guided into the other fixture. The blade should be very tight in the saw. The Artistic Wire Saw Frame comes with everything you need to start cutting sheet metal, large gauge wire and a host of other metal, wood, and other products. Replacement saw blades are available.

	Description	Blade Size	Pieces	Part #
A	Saw Frame with 36 Blades	3/0 • 2/0 • 1/0	36 (12 ea size)	2245-100
B	Replacement Blades	3/0	144	2245-030
C	Replacement Blades	2/0	144	2245-020
D	Replacement Blades	1/0	144	2245-010

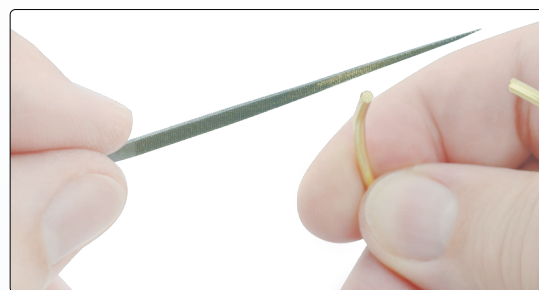

Print or trace a design onto a self adhesive label. Attach it to a copper sheet and cut it out with this saw for customized jewelry!

E. Artistic Wire Triangle Needle File

The compact Triangle Needle File has a comfortable handle for added comfort and control while filing rough edges off of Round and Shaped Artistic Wire, German Style Wire and Precious Metal Wire. The perfect tool to smooth a cut edge of Flat Artistic Wire or sheet metal. Measures 11.3 cm long (4.4 in). File tapers from 3 mm (0.11 in) to .50 mm (0.02 in).

Part #
2065-030

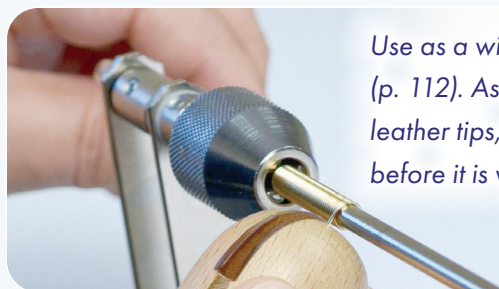

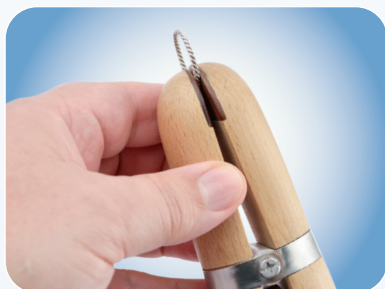

F. Artistic Wire Wooden Ring/Wire Clamp

This tool is one of the favorites of Leroy Goertz, the inventor of the Coiling Gizmo series and the Professional Coiling Gizmo. Use the clamp as a guide to feed the wire onto the mandrels with ease. As the wire passes through the clamped leather tips, it gets an additional straightening just before it is deposited onto the mandrel. This clamp is also excellent to hold rings for finishing and holding during setting.

Part #
2285-500

Soft, leather tips prevent marring while holding rings and wire jewelry firmly in place.

Use as a wire guide with the Coiling Gizmo (p. 112). As the wire passes through the clamped leather tips, it gets an additional straightening just before it is wound onto the mandrel.

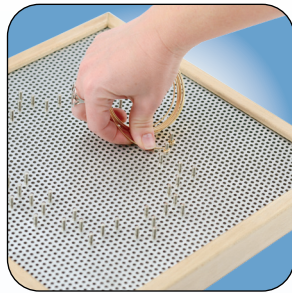

The Wire Wizard™

Artistic Wire The Really Big Jig™ EXCLUSIVE!

Designed by The Wire Wizard, Corrine Gurry, The Really Big Jig is the perfect size to create large designs on the 11.25 in x 11.25 in (28.57 cm x 28.57 cm) work area. This jumbo jig allows you to create a wide array of full-size jewelry design, pendants, components, pins, sun-catchers, mobiles, and so much more. 50 pegs included.

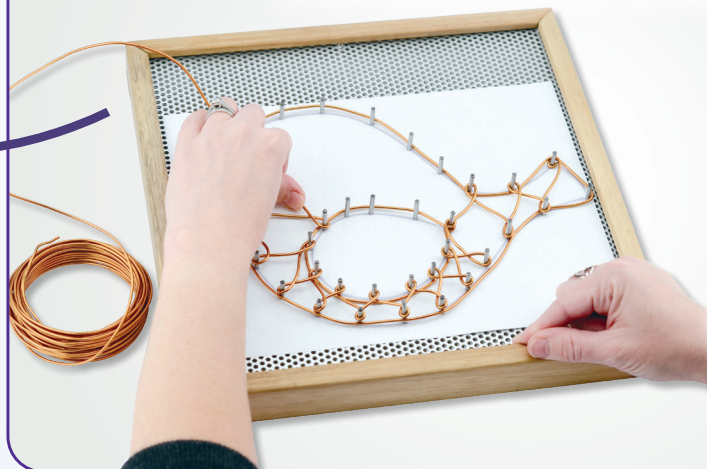

Part #
228P-800

Create full-size wearable necklaces and bracelets on a single jig!

Aluminum Craft Wire (p. 37) works great with The Really Big Jig for creating large designs!

Artistic Wire - Wire Knitter Tools *EXCLUSIVE!*

Knit ropes using Artistic Wire or Beadalon Bead Stringing Wire using the Artistic Wire Knitter Tools. The 4 prong tool will create a looser weave, and the 6 prong tool will create a tighter weave. Try different stitches with each tool to create different patterns. String up beads using the Spin-N-Bead (p. 130) before starting to create designs with beads. Use the Artistic Wire Knitter/Kumihimo Weights (below) to maintain an even tension on your project. Use the Beading Awl (p. 129) to grab the wires and pull over the pegs during the knitting process.

	Description	Part #
A	4 Prong Knitter Tool	2285-434
B	6 Prong Knitter Tool	2285-436

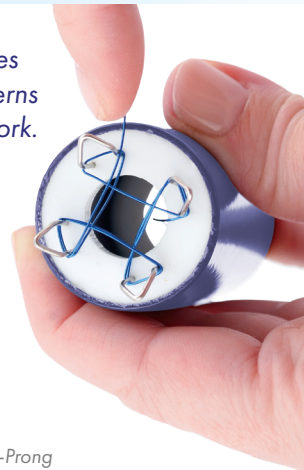

A
4-Prong

B
6-Prong

Use Artistic Wire gauges 26-34 for various patterns and styles of knitting work.

Use these weights to help keep even tension on your design while working on your project.

Artistic Wire Knitter/Kumihimo Weights

Use the Artistic Wire Knitter/Kumihimo Weights with the Knitter Tools to keep an even tension on your project. Hook the weight's loop onto your wire or thread as you start your project, and it will give just enough tension to keep your design consistent. Use both weights together if more pressure is needed.

	Description	Part #
C	50 g (1.7 oz)	2285-438
D	100 g (3.5 oz)	2285-439

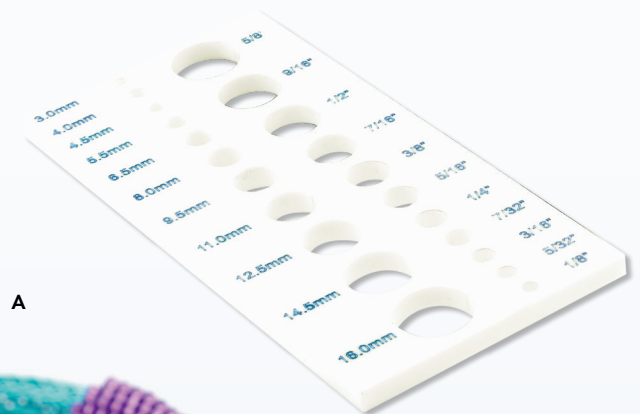

A. Artistic Wire Braided Wire Draw-Down Plate

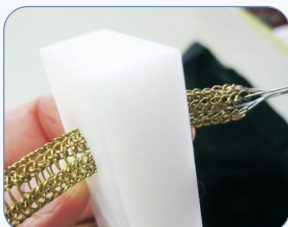

This Draw Plate is laser cut from acrylic and specially designed to minimize marring wire as you draw it down. Start with a length of knitted or braided Wire rope, then draw it through successively smaller holes until it is the size you need. Each hole is slightly tapered to make a smoother and more even draw. The plate has two sets of holes, one marked with millimeters from 16 mm to 3 mm and the other inches and 5/8 in to 1/8 in. 22 holes total.

Part #
2225-412

- Laser cut holes are tapered to make a smoother and more even draw
- Draw down braided or knitted wire ropes from 16 to 3 mm and 5/8 to 1/8 inches

A

A

A. Ball Pein Hammer

Ball Pein (or Peen) hammer is used to peen (harden or shape) material. The round hemispherical head marks wire, sheet or other materials with nice round peens or dents. This can be for aesthetic appearance and also for hardening the material being hammered. The other side of the hammer can also be used to harden wire or other materials without the small round dents as with the peen or peen side. High quality polished head securely attached to a quality wood handle.

Part #

228A-014

B

B. Designer Chasing Hammer

Large flat head is used to flatten soft-tempered wires such as Artistic Wire and ColourCraft. Round head can be used for indenting wire and metal. Wooden handle allows for a secure grip, making flattening wires easier. Use with Beadalon Anvil or Bench Block to strengthen and flatten designs made with Artistic Wire and other wires. 10" (25.3 cm).

Part #

JTCHASHAM1

C

C. Nylon Head Hammer

Two large flat heads made of white nylon, perfect for flattening German Style, Artistic Wire, ColourCraft, and all other craft wires after shaping. Flattened wire is stronger (work hardened) and holds shape better. Use with the Beadalon Anvil or Bench Block. 10" (25.3 cm).

Part #

2285-010

D

D. Artistic Wire Hammer w/Chrome Plated Mini Steel Bench Block

Artistic wire Mini Steel Bench Block and Hammer combine the two most often used tools when flattening or strengthening Artistic wire designs. Lightly hammer formed Artistic Wire shapes on the Bench Block with the Hammer to flatten and strengthen the design for longer wear life.

Part #

228K-100

E

E. Artistic Wire Nylon Masher

Artistic Wire nylon masher set consists of two blocks made of nylon material. Insert an Artistic Wire design form between the two blocks, place on a hard sturdy surface, and strike the block with a hammer until the desired flattened effect is reached. Nylon block protect wire forms from nicks, marks, and distortion caused when using a hammer directly on the wire. 3 in x 3 in (7.62 cm X 7.62 cm).

Part #

2285-460

Before

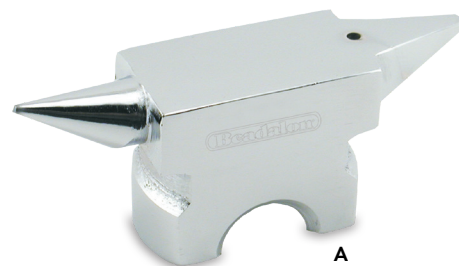

After

A. Designer Desktop Anvil

This miniature steel Anvil is great for forming Artistic Wire and precious metal wires. One round horn and one flat horn with a hole for riveting and bending. Features a large flat working surface for chasing metal, wire shaping, bending corners, and flattening wire to harden it. For use with the Beadalon Chasing Hammer. The Anvil is a must for making flattened hook and eye clasps with Artistic Wires. 1.1 lbs. (18 oz); 1.673" x 4.331" x 1.18" (4.25 cm x 11.0 cm x 3.0 cm).

Part #
JTANVIL1

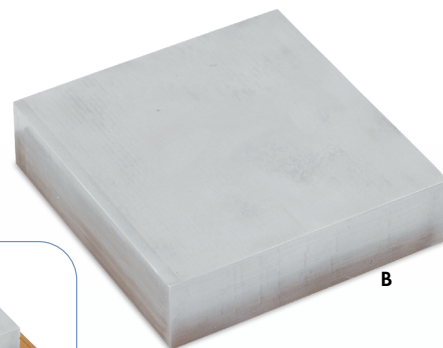

A

B. Steel Bench Block - Heavyweight

This hefty Steel Bench Block is useful for shaping and flattening wire forms. Create custom pieces with Artistic Wire, ColourCraft, and German Style Wire using the Bench Block and Chasing Hammer. 3" x 3" x .75" (7.62 cm x 7.62 cm x 2.0 cm).

Part #
JTBLOCK1

B

Craft custom findings with Artistic Wire and German Style Wire using the Bench Block, Desktop Anvil, Chasing Hammer, and Spiral Maker.

Bench Block and Pad sold separately.

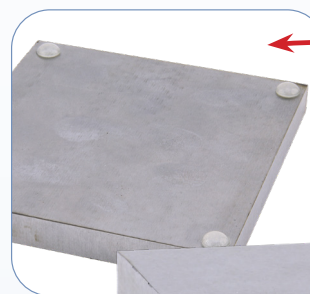

C

C. Pad for Bench Block/Desktop Anvil

Stitched leather pouch filled with sand to absorb the energy, noise, and vibration caused by hammering on a Bench Block or Anvil to flatten wire or chase metal. 4" x 4" (10.2x10.2 cm).

Part #
228S-018

Features adhesive-back silicone feet!

D. Steel Bench Block - Lightweight

This Lightweight Steel Bench Block measures 4 in x 4 in x 0.50 in (101.6 mm x 101.6 mm x 12.7 mm) and Features adhesive-back silicone feet!

Part #
JTBLOCK2

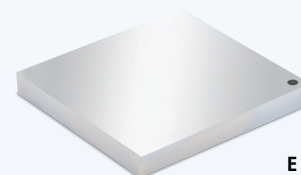

D

E. Artistic Wire Mini Steel Chrome Plated Bench Block

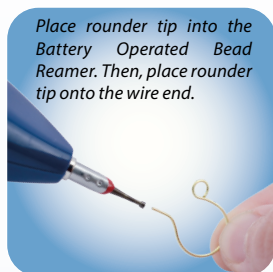

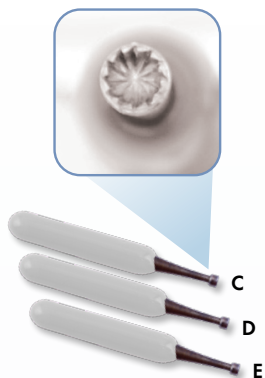

The Artistic Wire Mini Steel Chrome Plated Bench Block is smaller and thinner making it versatile for travel or use at home. The block is much lighter with the same benefits as larger heavier Bench Blocks. 1.875 in x 1.875 in (4.7 cm x 4.7 cm).

Part #
228S-200

E

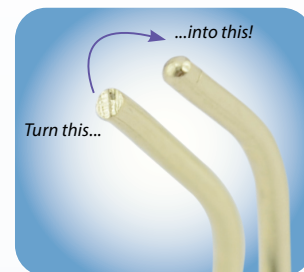

The Battery Operated Bead Reamer comes with 2 Tips and instructions!

Place rounder tip into the Battery Operated Bead Reamer. Then, place rounder tip onto the wire end.

Press the button to smooth the end.

Turn this...

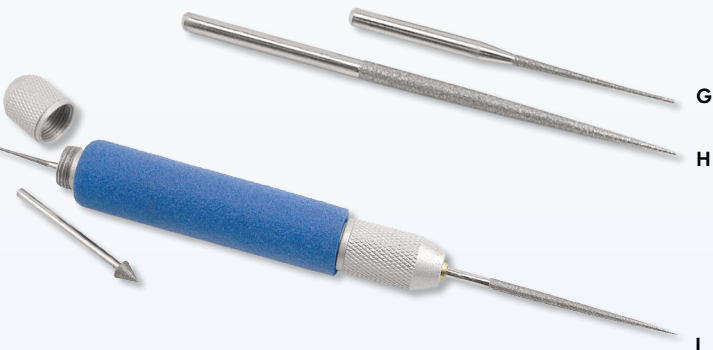

...into this!

F. Designer Bead Reamer

Three tools in one! Enlarge, de-burr, or round out bead holes. Three different tips are included, fitting bead holes from the smallest up to 5.0mm. Each tip is coated with diamond dust for smooth, even reaming. Tips store conveniently inside the tool and attach to the top for use. Handy spring clip makes it easy to carry. Replacement tips sold separately. 4.5 inches (11.4 cm). Made in USA. 🇺🇸

Part #
JTREAM1

Reamer Replacement Tips

Large Tapered Reamer Tip: 3 1/8 inches (8 cm). Small Tapered Reamer Tip: 2 inches (5 cm).

	Description	Part #
G	Small Replacement Tip	JTREAMPTSM
H	Large Replacement Tip	JTREAMPTLG

I. Econo Bead Reamer

An economical tool for enlarging holes in beads. The diamond grit on the tips is coarser and provides more aggressive cutting action. Use care with pearls and other soft materials. Comes complete with large taper tip, small taper tip, and edging tip. Foam handle for comfort. See replacement tips above. 4.5 inches (11.4 cm).

Part #
206A-020

A. Battery Operated Bead Reamer *EXCLUSIVE!*

Easily enlarge holes in pearls, gemstone, or other beads. Simply submerge bead and tip into a small amount of water, firmly hold bead and press the button and watch the reamer work. Retail-ready packaged, with detailed instructions, requires 2 AA batteries (not included). Includes two tapered tips. Replacement tips shown below. 5.25 inches (13.3 cm).

Part #
240A-100

B. Battery Operated Bead Reamer Replacement Tips

For use with the Beadalon Battery Operated Bead Reamer. Retail package contains two small tapered reamer tips, 2 inches (5 cm). Rubber sleeve included.

Part #
240A-101

EXCLUSIVE!

Wire Rounder Tips for Battery Operated Bead Reamer

Now, filing the ends of wire is as simple as pressing a button! Use with the Battery Operated Bead Reamer (purchase separately) to quickly and easily round the ends of wire-wrapping wires like Silver-Filled and German Style Wires as well as Artistic Wire and ColourCraft. The Wire Rounders can also be used with fine metal wires. Use the Wire Rounders to file handmade earwires and finish the ends of wire wrapped designs for an ultra smooth finish with no sharp edges. The smallest tip will round wires of 20 gauge and smaller; the medium tip works with 16 and 18 gauge wire; and the largest tip smooths 12 and 14 gauge wires.

	For Wire Gauges	Part #
C	12-14 ga (2.1 - 1.6 mm)	208F-003
D	16-18 ga (1.3 - 1.0 mm)	208F-004
E	20-smaller (0.81 - smaller)	208F-005

A. Designer Wire Rounder

The Beadalon Wire Rounder has a small cup burr at its tip that rounds wire ends. Place the end of any gauge Artistic Wire, sterling, gold-filled, or gold color wire into the cup, push the two firmly together, and twist the tool against the wire for a smooth round end. 5.25" (13.3 cm). Made in USA.

Part #

208F-001

B. Designer Very Fine Pearl Reamer

Use the Beadalon Very Fine Pearl Reamer to enlarge and smooth out drill holes in pearls. The sharp, corkscrew-like file fits easily into the hole of any small pearl. Simply slide a pearl onto the file, and slide the pearl back and forth until desired interior diameter is reached. You will notice pearl dust as it cuts. Drill diameter: .60 mm (.024") 5 inches (12.7 cm). Made in USA.

Part #

206A-012

C. Designer Fine Pearl Reamer

Like the Very Fine Pearl Reamer described above, the Fine Pearl Reamer is designed to enlarge and smooth out drill holes in pearls. The Fine Pearl Reamer has a slightly larger drill diameter. Also a great tool for removing the white release clay from lampwork glass beads. 5 inches (12.7 cm). Made in USA.

Part #

206A-011

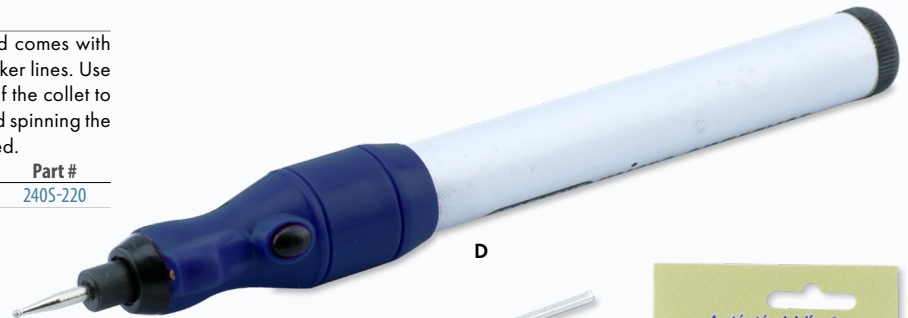

D. Artistic Wire Micro Engraver

This engraving tool is equipped with a handy bright LED light and comes with two sizes (2 mm & 4 mm) of diamond grinding tips for thin and thicker lines. Use the Allen Wrench to loosen and tighten the set screw on the side of the collet to change the tips. When changing the tip, remove the battery to avoid spinning the tip with the wrench attached. Requires 2 AAA Batteries not included.

Part #

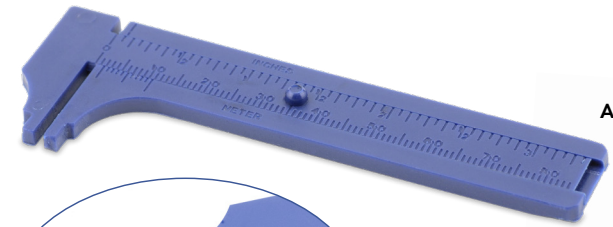

240S-220

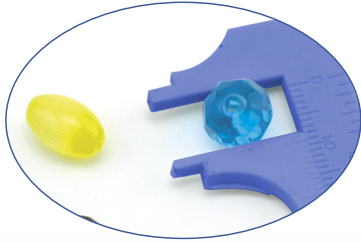

Part #

240S-201

A

A. 80 mm Econo Slide Gauge

This Econo Slide Gauge is perfect for measuring beads, calibrated cabochons, and other small objects.

Part #
222F-002

B

B. Bead Scoop

Access beads of all sizes from bins, storage containers, and mats with this compact metal scoop. Use it for inventory, sales, and design layout. Use it to clean beads off your workstation. An excellent tool for getting seed beads back into containers. It measures 6.125 inches (15.6 cm).

Part #
216A-004

C

C. Designer Beading Scissors

Beading Scissors are razor-sharp for quick and easy cutting of ALL bead cord. Small tip allows for precision snipping in tight places. 4 inches (10.2 cm).

Part #
211A-002

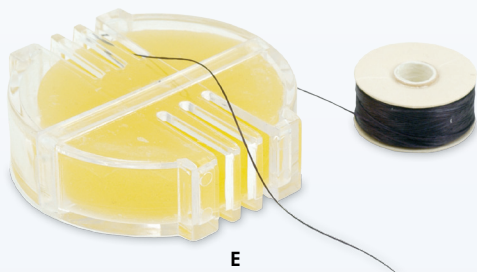

D

D. Snipper Tool

These compact Snips have precision tips to make close cuts easy. Built for efficiency, these snips look good and can cut Silk Cord, Nylon, B-Lon and most other non-metal stringing materials with ease. Always-ready blades are extremely sharp and hold their edge. The secure blade cover prevents accidental holes. 4.5 inches (11.43 mm)

Part #
211A-015

E

E. Beader's Wax

This paraffin wax is an alternative thread surfacing conditioner. Helps to prevent fraying and tangling during stringing projects. Simply draw thread through the convenient slits in the case.

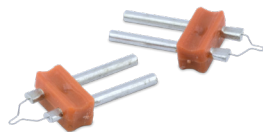

Description	Quantity	Part #
Beaders Wax (Individual Retail Pack)	0.43 oz (12.3 g)	216S-010

A. WildFire® Cord Cutter & Replacement Tips

Use the battery operated WildFire Cord Cutter to quickly and easily cut and fuse the ends of WildFire Beading Thread. Uses two AAA batteries (not included). Also great for Nylon and Poly-cords, as well as sealing frays in many types of stringing materials including B-Lon. Replacement tips (2) sold separately.

Name	Part #
WildFire® Cord Cutter	211F-100
Replacement Tips (2)	211F-102

Extend the life of your WildFire Cord Cutter with replacement tips.

A

Cuts through WildFire and other Cords with ease!

B. Designer Curved Tweezers

The curved super-fine points of the precision Curved Tweezers add control when picking-up smaller beads, and have an improved blade angle for better visibility when working with knots. Precision points are excellent for knotting. 4.625 inches (11.8 cm).

Part #
213A-010

C. Designer Straight Tweezers

Don't fumble with silk knots or small Crimp Beads any more: use Beadalon precision stainless steel Tweezers. These straight-end tweezers are great for general use with beads and findings of all sizes. 4.5 inches (11.4 cm).

Part #
213A-014

D. Tweezers with Shovel

Use the shovel on the end of these standard straight tweezers for added convenience when working with small beads and findings. Great for packaging and counting small parts. 7.187 inches (18.3 cm).

Part #
213C-001

E. Designer Fiber-Tip Tweezers

Use Fiber-Tip Tweezers when working with pearls and other delicate beads. The soft fiber tips prevent marring of bead and finding surfaces. Ends have half-circle indentations for a better grip. Great for use with the Battery Operated Bead Reamer for holding beads under water while reaming. 4.75 inches (12.1 cm).

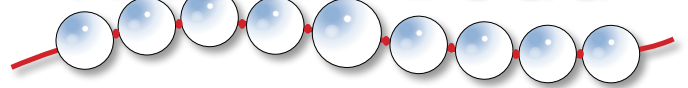

Part #
213C-004

Patent 8,944,475

EXCLUSIVE!

Knot-a-Bead™

TABLETOP KNOTTER TOOL

The Beadalon Knot-a-Bead™ is a patented tabletop knoter tool that allows you to tie knots naturally with two hands and position the knots tightly against beads for professional looking jewelry. The sturdy, ergonomic design is safe and simple to use, even for beginners. It will accommodate any shape bead up to 16 mm in diameter, and the specially designed yoke and stainless steel auto-reset awl allow you to position knots precisely where you want them. Use with most diameters and types of bead stringing materials.

Part #

216S-275

KNOT-A-BEAD FEATURES

- Make professional looking hand knotted jewelry quickly and easily
- Ergonomic design allows for natural two-handed knot tying between beads
- Spring-loaded stainless steel, auto-reset awl places knots with precision
- Accommodates any shape beads up to 16 mm in diameter
- Use with all diameters and most types of bead stringing materials
- Fast and easy-to-use, even for beginners

The Knot-a-Bead tabletop knoter tool is a fast and easy way to hand knot between beads.

Create Tin Cup Necklace designs with Knot-a-Bead Spacers!

0.5 in
(12.7 mm)

0.75 in
(19.05 mm)

Knot-a-Bead Spacers **EXCLUSIVE!**

Use Knot-a-Bead Spacers to make Tin Cup Necklace designs with the Knot-A-Bead Tool. Slide the silk in between the foam and snug it up to your bead. Use the tool to tie a knot against the Spacer. You can also use the Spacers with the Beadalon Knotter Tool (p. 129). Pack comes with two sizes to make Tin Cup Style Necklaces in either 12.7 mm (0.5 in) or 19.05 mm (0.75 in), spaces. Alternate both sizes in one necklace for a unique, custom design!

Part #

216S-285

USING KNOT-A-BEAD SPACERS

A Knotter Tool *EXCLUSIVE!*

This premium quality, wooden handled knotting tool allows you to create tight, consistent, professional looking knots between beads and pearls with speed and precision. The smooth operating metal yoke and fixed position awl are there to protect bead cords. Comes with a fully illustrated, easy to follow instruction book inside an anti-theft, retail-ready package. The wooden handled Beadalon Knotter Tool is superior to the similarly priced, but cheaply made Chinese knockoffs with plastic handles and sharp metal parts that frequently cut bead cords.

	Description	Part #
A	Knotter Tool	JTECONKNOT

A

B. Tin Cup Knotter Tool

Made popular by the movie of the same name, Tin Cup Necklaces, in which there is a bead or pearl knotted between stations of cording, are still as popular as ever. This tool allows you to make Tin Cup Style Necklaces with consistently spaced beads and the ease of the Beadalon Knotter Tool. Simply set the preferred knot distance by using the Allen wrench to tighten the screw on the extender - then begin knotting!

Part #
2165-290

B

Create Tin Cup Style Necklaces or Bracelets with even, consistently spaced beads and knots

Works similar to the Beadalon Knotter Tool (above) with the option of setting an adjustable knotting distance

**C. Designer Knotting Pliers**

Thin, smooth tips help secure and position knots without fraying silk thread or other fibrous stringing materials. Stainless steel box joint construction improves leverage and dependability; rounded handles are coated for comfort. 5.125 inches (13 cm).

Part #
201E-001

C

D. Designer Beading Awl

Deluxe rubberized handle helps control tip placement. Great for hand knotting and opening small seamed-beads for covering crimps. 5.75 inches (14.6 cm).

Part #
206A-010

D

Spin-N-Bead™ Bead Loaders

String seed beads, liquid silver beads, or other small beads with speed and ease. Beadalon Spin-N-Bead bead loaders makes the tedious work simple! Fill the bowl about half-full of beads, and then spin. Insert a Curved Big Eye Beading Needle into the spinning beads and watch them jump onto the needle! The beads nest all on their own - when ample beads are on the needle, then move them to the connected stringing material and dip the needle back into the spinning beads to load on another few inches.

Description	Height cm	Width cm	Part #
A Mini Spin-N-Bead	5.72 (2.25")	6.35 (2.5")	206A-402
B Spin-N-Bead Jr.	8.89 (3.50")	8.89 (3.50")	206A-410

By Adrienne Gaskell

Spin-N-Bead™ Quick Change Trays **EXCLUSIVE!**

Use these quick-change trays to change colors of beads on your Spin-N-Bead container without having to empty the bowl and refill it time and time again. Prepare each tray with the color of seed beads that you are working with, and simply switch them out by placing them over the rod in the middle of the Spin-N-Bead. Great for Multi-strand Seed Bead, Kumihimo, and French Beaded Flower Designs. Invented by World Class Kumihimo artist Adrienne Gaskell. Packed 2 per package.

Part #
206A-420

Trays are stackable!

Depending on the Spin-n-Bead you use, Quick-Change Trays will either nest inside or sit on-top of the bowl.

Tying Station *EXCLUSIVE!*

The Tying Station was designed by Meredith Roddy specifically to keep two hands free to make easier Shamballa Style and Wrap Bracelets with Beadalon Beading Wire, leather cord, wax cord or other stringing material. There is a guide ruler on the side to help keep spacing even and size out your design. An included extra foam pad makes the tool expandable to make a longer design. Easy to follow instruction are included.

Part #
2165-210

The Tying Station was designed specifically to keep two hands free to make easier Shamballa Style and Wrap Bracelets.

Unlike other braiding discs on the market, Beadalon kept all non-essential information on the BACK of our Kumihimo Disc so that you won't have any unnecessary distractions while you are designing.

A

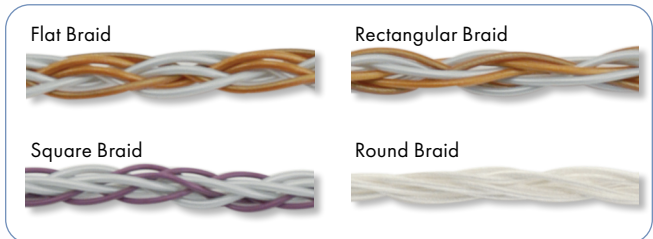

B

Kumihimo Braiding Discs

Use the Kumihimo Braiding Discs with Beadalon wire to make beautiful braided necklaces and bracelets. Use multiple metallic colors to create rich poly-braid patterns or use all strands the same color to create more subtle patterns. You can also use the Kumihimo Braiding Discs with leather, hemp, B-Lon, or satin cord for chunky braids or use it with silk or nylon for thinner braids. Add beads while braiding to create stunning designs. Helpful instructions included!

	Description	Part #
A	4.25" (10.8 cm) Round Disc	223F-010
B	6" (15.2 cm) Round Disc	223F-013

Use the Kumihimo Disc to braid intricate, multi-strand designs with all types of cords and stringing materials.

Double Density Kumihimo Braiding Discs

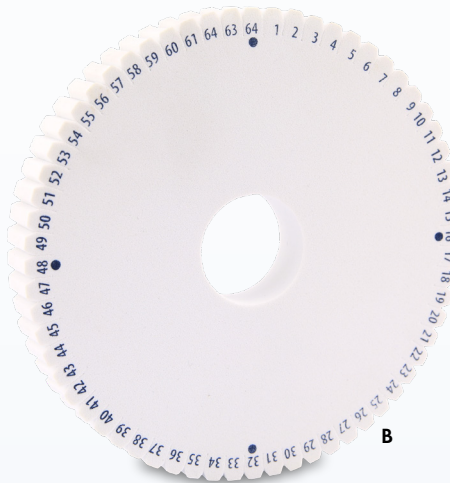

Double the thickness of regular Kumihimo Discs, these 20 mm (0.75 in) thick discs can securely hold smaller diameter materials such as Beadalon Bead Stringing Wire, thin silk, and thinner Artistic and German Style wires. It also is good for larger stringing materials and for heavier beads. The 64 slots in this Kumihimo Disc gives you the option to create with more warp braids than smaller discs. It's a good idea to use Kumihimo bobbins to keep your cords from tangling, and Kumihimo weights to maintain even tension.

	Description	Part #
A	4.25 in (10.8 cm) Round Disc	223F-020
B	6 in (15.2 cm) Round Disc	223F-026

Unlike other braiding discs on the market, Beadalon kept all non-essential information on the BACK of our Kumihimo Disc so that you won't have any unnecessary distractions while you are designing.

A

B

Kumihimo Tangle-Free Bobbins

These bobbins are used to keep your stringing materials tangle free while using the kumihimo disc by adding weight and size. Bobbins can also be used to store stringing material.

	Description	Pieces	Part #
A	2.3 in (5.8 cm) Medium	8	223F-064

Tangle-Free Bobbins help keep your strands separate while braiding.

Artistic Wire Knitter /Kumihimo Weight **EXCLUSIVE!**

Use the Artistic Wire Weights, and Knitter tool with the Beadalon Kumihimo Discs to keep an even tension on your project. Hook the weight's loop onto your wire or thread as you start your project, and it will give just enough tension to keep your design consistent. Use both weights together if more weight is needed.

	Description	Part #
B	50 g (1.7 oz)	228S-438
C	100 g (3.5 oz)	228S-439

Use these weights to help keep tension on your braided design through the hole while braiding.

Also use with the Knitter Tool (p. 121).

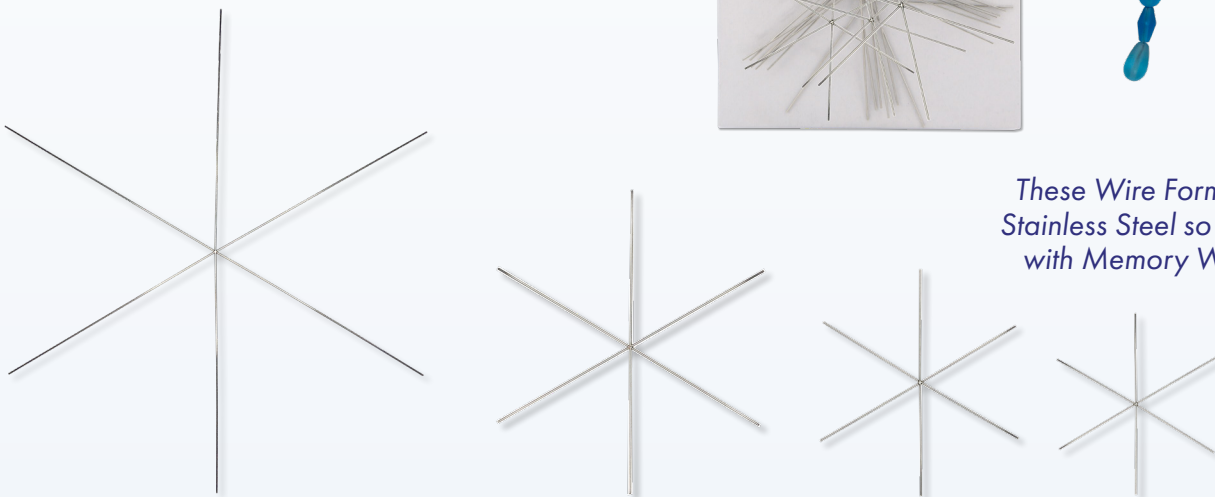

Snow Flake Wire Forms

Ideal for making ornaments but also great for sun catchers, earrings, dangles for rear view mirrors and more. Available in several sizes and assortments. Stainless Steel.

	Size	Wire Diameter	Material	Quantity	Part #
